[*on the report of the Third Committee (A/59/495)*]

59/163. International cooperation against the world drug problem

The General Assembly,

Recalling the United Nations Millennium Declaration,[1] its resolution 58/141 of 22 December 2003 and its other previous resolutions,

Reaffirming its commitment to the outcome of the twentieth special session of the General Assembly, devoted to countering the world drug problem together, held in New York from 8 to 10 June 1998, and welcoming the continuing determination of Governments to overcome the world drug problem by a full and balanced application of national, regional and international strategies to reduce the demand for, production of and trafficking in illicit drugs,

Reaffirming the importance of the commitments of Member States in meeting the objectives targeted for 2003 and 2008, as set out in the Political Declaration adopted by the General Assembly at the twentieth special session,[2] and welcoming the guidelines and elements recommended by the Commission on Narcotic Drugs to the Executive Director of the United Nations International Drug Control Programme for the preparation of subsequent reports on the follow-up to the twentieth special session,[3]

Emphasizing the importance of the Action Plan[4] for the Implementation of the Declaration on the Guiding Principles of Drug Demand Reduction,[5] which introduces a new global approach balanced between illicit supply and demand reduction, under the principle of shared responsibility, and of the Action Plan on International Cooperation on the Eradication of Illicit Drug Crops and on Alternative Development,[6] which recognizes the importance of supply reduction as an integral part of a balanced drug control strategy,

Recognizing the efforts of all countries, in particular those that produce narcotic drugs for scientific and medical purposes, and of the International Narcotics Control Board in preventing the diversion of such substances to illicit markets and in maintaining production at a level consistent with licit demand, in line with the Single Convention on Narcotic Drugs of 1961 [7] and the Convention on Psychotropic Substances of 1971,[8]

Aware that progress has been uneven in meeting the goals set in the Political Declaration, as also reflected in the biennial reports of the Executive Director of the United Nations Office on Drugs and Crime,[9] and recognizing that the drug problem is still a global challenge that constitutes a serious threat to public health and safety and the well-being of humankind, in particular children and young people, and that it undermines socio-economic and political stability and sustainable development, including efforts to reduce poverty, and causes violence and crime, including in urban areas,

Concerned by the increase in the abuse of illicit drugs among children, including adolescents, and young people,

Concerned also by the challenges posed by links between the spread of HIV/AIDS and injecting drug use,

Concerned further by the serious challenges and threats posed by the continuing links between illicit drug trafficking and terrorism and other national and transnational criminal activities, such as trafficking in human beings, especially women and children, money-laundering, corruption, trafficking in arms and trafficking in chemical precursors, and reaffirming that strong and effective international cooperation is needed to counter these threats,

Concerned about policies and activities in favour of the legalization of illicit narcotic drugs and psychotropic substances that are not in accordance with the international drug control treaties and that might jeopardize the international drug control regime,

Concerned also by the increase in the diversion of chemical precursors used in the illicit manufacture of drugs,

Acknowledging that international cooperation in countering drug abuse and illicit production and trafficking has shown that positive results can be achieved through sustained and collective efforts, and expressing its appreciation for the initiatives in this regard,

I

Respect for the principles enshrined in the Charter of the United Nations and international law in countering the world drug problem

2. *Urges* all States to ratify or accede to, and States parties to implement all the provisions of, the Single Convention on Narcotic Drugs of 1961 as amended by the 1972 Protocol,[10] the Convention on Psychotropic Substances of 1971[8] and the United Nations Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances of 1988;[11]

II

International cooperation to counter the world drug problem and follow-up to the twentieth special session

1. *Reaffirms* the Joint Ministerial Statement and further measures to implement the action plans emanating from the twentieth special session of the General Assembly, adopted during the ministerial segment of the forty-sixth session of the Commission on Narcotic Drugs,[14] which emphasizes that the world drug problem must be addressed in multilateral, regional, bilateral and national settings and that, in order to succeed, action to counter it has to involve all Member States, that action must be supported by strong international and development cooperation and must be further included in national development priorities, and that it requires a balance between supply reduction and demand reduction, as well as a comprehensive strategy that combines alternative development, including, as appropriate, preventive alternative development, eradication, interdiction, law enforcement, prevention, treatment and rehabilitation as well as education;

2. *Calls upon* all States to strengthen their efforts in the fight against the world drug problem, in order to achieve the objectives targeted for 2008 in the Political Declaration adopted by the General Assembly at the twentieth special session;[2]

3. *Calls upon* all relevant actors to continue their close cooperation with Governments in promoting and implementing the outcome of the twentieth special session and the ministerial segment of the forty-sixth session of the Commission on Narcotic Drugs;

(*a*) To further implement comprehensive demand reduction policies and programmes, including research, covering all the drugs under international control, in order to raise public awareness of the drug problem, paying special attention to prevention and education and providing, especially to young people and others at risk, information on developing life skills, making healthy choices and engaging in drug-free activities;

(*b*) To further develop and implement comprehensive demand reduction policies, including risk reduction activities, that are in line with sound medical practice and the international drug control treaties and that reduce the adverse health and social consequences of drug abuse, and to provide a wide range of comprehensive services for the treatment, rehabilitation and social reintegration of drug abusers, with appropriate resources being devoted to such services, since social exclusion constitutes an important risk factor for drug abuse;

Illicit synthetic drugs

7. *Urges* States to renew their efforts, at the national, regional and international levels, to implement the comprehensive measures covered in the Action Plan against Illicit Manufacture, Trafficking and Abuse of Amphetamine-type Stimulants and Their Precursors,[15] to make special efforts to counter the abuse and recreational use of amphetamine-type stimulants, especially by young people, and to disseminate information on the adverse health, social and economic consequences of such abuse;

Control of substances

8. *Encourages* States to establish or strengthen mechanisms and procedures to ensure strict control of substances that are listed in the international drug treaties and are used to manufacture illicit drugs of natural and synthetic origin, and to support international operations aimed at preventing their diversion, including through coordination and cooperation between regulatory and enforcement services involved in their control;

Judicial cooperation

10. *Calls upon* all States to strengthen international cooperation among judicial and law enforcement authorities at all levels in order to prevent and combat illicit drug trafficking and to share and promote best operational practices in order to interdict illicit drug trafficking, including by establishing and strengthening regional mechanisms, providing technical assistance and establishing effective methods for cooperation, in particular in the areas of air, maritime, port and border control and in the implementation of extradition treaties;

Countering money-laundering

11. *Urges* States to strengthen action, in particular international cooperation and technical assistance aimed at preventing and combating the laundering of proceeds derived from drug trafficking and related criminal activities, with the support of the United Nations system, international institutions such as the World Bank and regional development banks, to develop and strengthen comprehensive international regimes to combat money-laundering, and to improve information-sharing among financial institutions and agencies in charge of preventing and detecting the laundering of those proceeds;

12. *Calls upon* States to consider including provisions in their national drug control plans for the establishment of national networks to enhance their respective capabilities to prevent, monitor, control and suppress serious offences connected with money-laundering and the financing of terrorist acts, and in general to counter all acts of transnational organized crime, and to supplement existing regional and international networks dealing with money-laundering;

International cooperation in illicit crop eradication and alternative development

13. *Recognizes* the efforts made by States to implement innovative alternative programmes, inter alia, in reforestation, agriculture and small and medium enterprise, and stresses the importance of the United Nations system and the international community contributing to the economic and social development of the communities that benefit from such programmes;

14. *Calls upon* States, where appropriate:

(*a*) To enhance support, including, where appropriate, through the provision of new and additional financial resources, for alternative development, environmental protection and eradication programmes undertaken by countries affected by the illicit cultivation of cannabis, especially in Africa, of opium poppy and of coca bush, in particular national programmes that seek to reduce social marginalization and promote sustainable economic development;

(*b*) To enhance joint strategies, through international and regional cooperation, to strengthen, including by training, education and providing technical assistance, alternative development, eradication and interdiction capacity, with the aim of eliminating illicit crop cultivation and fostering economic and social development;

(*c*) To encourage international cooperation, including, as appropriate, preventive alternative development, to prevent illicit crop cultivation from emerging in or being relocated to other areas;

(*d*) To provide, in accordance with the principle of shared responsibility, greater access to their markets for products of alternative development programmes, which are necessary for the creation of employment and the eradication of poverty;

(*e*) To establish or reinforce, where appropriate, national mechanisms to monitor and verify illicit crops;

(*f*) To continue to contribute to the maintenance of a balance between the licit supply of and demand for opiate raw materials used for medical and scientific purposes and to cooperate in preventing the proliferation of sources of production of opiate raw materials;

4. *Notes* that the International Narcotics Control Board needs sufficient resources to carry out all its mandates, including those that will enable it to perform effectively its task within the framework of Operation Purple, Operation Topaz and Project Prism, and therefore urges Member States to commit themselves in a common effort to assigning adequate and sufficient budgetary resources to the Board, in

accordance with Economic and Social Council resolution 1996/20 of 23 July 1996, emphasizes the need to maintain its capacity, inter alia, through the provision of appropriate means by the Secretary-General and adequate technical support by the United Nations International Drug Control Programme, and calls for enhanced cooperation and understanding between Member States and the Board in order to enable it to implement all its mandates under the international drug control conventions;
